# Ivo Sequeros del Rey

(+34) 661 412 440   ivosequeros@icloud.com   Balmes 61, 1 2 B   Barcelona

I consider myself to be a very enthusiastic and motivated person. I take my work very seriously and I truly do my best at every step. I really enjoy learning, whether it's a language, a new technique or a programming language. I am very rigorous when it comes to small details and I am only satisfied when I don't see any flaw in my work.

Date of Birth	23/05/1996
Experience	**Website Design and Front-End & Back-End Development – 2013 - Present** Design and Development of several websites, all written in HTML, CSS, JavaScript, jQuery, Vue.js, PHP and nodeJS. **IT Consulting and Database Management – November 2014 - Present** Design and Implementation of a web application to manage a large database. **Scientific Application Development – Present** Developing a desktop application for microscopic analysis using Deep Learning techniques Using Tensorflow and Java
